VN Nelson Mandela Dag Stap, 18 Julie 2021, Wellington.

Was dit die moeite werd? Absoluut! Ek het baie geleer uit die lewende stroom tydens die stap t.o.v. die praktiese, veral uit Amerika wat gelei het tot 'n Zoom sessie. 'n Hele paar lande was ingeskakel en die opname word tans verwerk vir sosiale media gebruik, o.a. by @nofitmovement op Instagram en YouTube.

Die idee is dat ander gemeenskappe hul eie jaarlikse stap in Suid-Afrika en ander lande sal reël.

Vanjaar het 4 lande saam deelgeneem.

Ek deel graag terugvoering van deelnemers:

What an unusual experience it was – doing the Mandela walk!

It was interesting listening to Nico's thoughts and comments on the problems facing us today, and inspiring to hear how Mandela would have responded to these facts.

Some of the points Nico referred to that I can recall:

- The problems facing South Africa and the world at this moment – it's common to all peoples of the world.
- Human beings have common needs.
- The common origin of our problems is the human thought system, which needs to be adapted.
- Crime and criminal response can actually be reversed by altering the thought system – that is why prisoners are kept in “correctional services”.
- We can face the future by altering our thought systems, and by focussing on its positive aspects and potential.

And many more! Thank you for the positive experience, shared with many other people across the world. Looking out for the next Mandela walk.

To hear that several groups all over the world are tuning in and walking, was very exciting to know. That means there was a collective “thought cloud” of intention of care for our planet and for each other as human beings.

I tried to stay close to Nico to hear every word - it was not always possible. What struck me was that a positive and changed mindset is required to know who we as human beings really are, and what we are here for. How to respond to the new challenges that life presents to us as we go forward to a future of great change and expansion.

Walking brings the opportunity of being confronted with one's own thoughts. How one sees oneself and all things, as aspects of a greater reality.

Good luck and blessings to all the participating groups.

Armand Hurter (26) (redakteur van The Duke en aangehaal in Die Burger se berig) was een van die deelnemers en sê die stap was simbolies van die “long walk” na eenheid vir hom. Die nasie voel op die oomblik verdeeld. Ons moet bymekaar kom om weer die land se toekoms te bespreek en weer te kyk na die waardes en vooruitsigte wat Mandela vir die land gehad het om so ons geheue te verfris en om so daardeur te verenig.
