Centre for Good Governance in Africa, the School of Social Innovation at Huguenote
The Annual #Integritasza Conference and Workshops on:
Co-created Community-based Partnership Local Governance and Service Delivery in South
Africa: Analysis, Action, and Activism
Venue: Andrew Murray Centre for Spirituality: Wellington, South Africa
Date: Wednesday 30 November 2022 to Friday 2 December 2022

The context and challenges of, in many, but not all cases, failing South African local governance, conjures up several proverbial “wicked” problems as challenges for South African citizens.

These problems, include bad and failing local governance, deteriorating service delivery, ineffective to non-existent, toxic political and public leadership, corruption, maladministration, unprofessionalism and a consistent increase in poverty, inequality, and unemployment. Evidence, in official reports, abounds for this sad situation exacerbated by lacking integrity, empathy, and compassion, and reciprocity to citizens for their financial and civic contributions. Reports of the Auditor General, the Public Protector, the Zondo Commission, and the Human Rights Commission document the decline in South African local government and service delivery.

The outcomes of descending governance and declining service delivery disasters resulting in crumbling infrastructure, and sub-standard service delivery are there for all to see. The consequences are experienced in deep darkness when power failures occur, thirst and hygiene disasters when water dissipates. Raw sewage floods the streets, potholes replace roads. Poverty, inequality, and unemployment worsen. These dismal downward trends have necessitated citizen’s initiatives in many municipalities to find socially innovative solutions for devolved governance and decentralised service delivery. Ironically, this growing trend towards do-it-yourself community based local governance, counters the centralising ideological bias of central government aimed at controlling top-down governance.

Concerned and constructive citizens, who are already overburdened and paying municipal taxes and fees, have embarked on alternative socially innovative local governance initiatives. Case examples of such partnership governance between civil society, private sector and professional associations abound in cities and towns across the beloved country where citizens have set up alternative community-based service delivery initiatives to deliver alternatives to failing local governance.

The Big Idea given this looming bad governance disaster, is to initiate a set of knowledge-based courageous conversations at our conference and workshop titled:

Co-created Community-based Partnership Local Governance and Service Delivery in South Africa:
Analysis, Action, and Activism.

The conference will attempt to secure answers and solutions to these vexing questions and beyond.

**Die #Integritasza-konferensie en werksinkels oor:
Plaaslike Regering en Dienslewering in Suid-Afrika: Analise, Aksie en Aktiwisme***
Plek: Andrew Murray Sentrum vir Spiritualiteit: Wellington, Suid-Afrika
Datum: Woensdag 30 November 2022 tot Vrydag 2 Desember 2022

Die konteks en uitdagings van, in baie, en groeiende aantal. maar gelukkig nog nie alle gevalle nie, mislukte Suid-Afrikaanse munisipaliteite, roep verskeie komplekse probleme op as uitdagings vir Suid-Afrikaanse burgers.

Hierdie probleme sluit in swak en mislukte plaaslike munisipaliteite, verswakkende dienslewering, oneffektiewe tot nie-bestaande, toksiese politieke en openbare leierskap, korrupsie, wanadministrasie, onprofessionaliteit, en 'n konsekwente toename in armoede, ongelykheid en werkloosheid. Bewyse, in amptelike verslae, is volop vir hierdie hartseer situasie wat vererger word deur 'n gebrek aan integriteit, empatie en deernis, en wederkerigheid teenoor burgers vir hul finansiële en burgerlike bydraes. Die Ouditeur-generaal, Openbare Beskermer, Zondo-kommissie en Menseregtekommissie dokumenteer die deurlponde verval in plaaslike regering en dienslewering.

Die diensleweringrampe wat verbrokkelende infrastruktuur en swak dienslewering tot gevolg het, is duidelik sigbaar. Die gevolge is donkerte wanneer kragonderbrekings voorkom, dors en higiëniese rampe wanneer water verdwyn. Rou riool oorstroming die strate, slaggate vervang paaie. Armoede, ongelykheid en werkloosheid vererger.

Hierdie tragiese afwaartse neigings het burgerinisiatiewe in baie munisipaliteite genoodsaak om sosiaal innoverende oplossings vir afgewentelde bestuur en gedentraliseerde dienslewering te vind. Ironies weerspreek hierdie groeiende neiging na doen-dit-self gemeenskapsgebaseerde plaaslike bestuur die sentraliserende ideologiese vooroordeel van sentrale regering wat daarop gemik is om van bo af swak te bestuur deur sentrale onhandige beheer.

Bekommerde en konstruktiewe reeds oorlaaide burgers, wat reeds munisipale belasting en fooie betaal, pak sosiaal innoverende plaaslike bestuursinisiatiewe aan. Voorbeelde van sulke vennootskapsbestuur tussen die burgerlike samelewing, die privaatsektor en professionele verenigings is volop regoor die land. Burgers medeskep alternatiewe gemeenskapsgebaseerde diensleweringinisiatiewe op die been vir mislukte plaaslike regering en dienslewering.

Die groot idee, gegewe hierdie dreigende bestuursramp, 'n kennisgebaseerde dapper gesprekke by ons eindjaar konferensie en werksinkels oor: **Medeskeppende Gemeenskapsgebaseerde Vennootskaplike Plaaslike Regering en Dienslewering in Suid-Afrika: Analise, Aksie en Aktiwisme**

Die konferensie soek antwoorde en oplossings kwellende vraagstukke in analise, aksie en altiwisme.
